APRIL 2026

## ANNUAL NEWSLETTER

Members,

### A LETTER FROM THE GENERAL MANAGER

I would like to thank you all for your continued support of our corporation. Communication from you not only helps us keep the system working well but gives insight into improvements that can be made. I am grateful for the opportunity to serve this community.

Did you know that we are one of the last water supply corporations in our area that still go all out for our membership meeting? Please join us as we come together to share updates and visit with members.

-Scott Reynolds, GM

We are excited to share updates to the Golden Water Supply Board of Directors. This year, three board positions were up, and since all positions were unopposed, no election was needed. Robert Holland will continue serving with a second term, Larry Dunham joins the board for a full term, and Tully Davidson, grandson of a former General Manager Bob Hughes, will fill the seat of the late Rodney Patrick. We are grateful for their commitment, service, and willingness to help lead Golden Water Supply into the future.

Members should know the location of their customer shutoff valve, so water can be quickly turned off in the event of a leak or emergency. If one is not available customers should have one installed.
